### **REASONS FOR ALLOWANCE**

1. Claims 16 and 18-27 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 16, 18, 22, 24, and 26, wherein the claimed invention comprises all of the claimed limitations including bright pressing the lens' curved surface and the plane surface on both of the sides, as claimed. The combination of all the claimed features are not anticipated or made obvious by the prior art and all of said features are relied upon for a determination of allowability.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Continued Examination Under 37 CFR 1.114***

3. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e)

has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/24/07 has been entered.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Iwase et al. (6469844) discloses a lens element, that is guided along a tapered wall of a lens holder and slipped into the lens holder, is fixedly held on a lens support collar at a bottom of the lens holder by the thermally deforming fixing claws of the lens holder so as to grasp the outer periphery of the lens element.
